Component 4: Video Gallery

Use this gallery to display videos inline. You can choose to upload your videos to your website or to show videos hosted on YouTube/Vimeo/Wistia.

[Component Inspector Options]

The following are available in addition to the Shared Options described above:

Property	Inspector Name	Description
`videoGalleryItemsSelector`	Gallery Selector/ID	JQuery selector for the element that holds the video items; for example: `#videos`
`videoGalleryLayout`	Gallery Layout	Select a gallery layout; possible values are: - `default` / Default (use the gallery layout set on the plugin settings page) - `video_gallery_right_thumb` / Thumbnails - `video_gallery_right_title_only` / Titles Only - `video_gallery_right_no_thumb` / No Thumbnails Check out the demo site for live examples of each layout.
`additionalVideoGalleryOptions`	Script Options	Additional JS options that you want passed onto the UniteGallery script, for example: `theme_autoplay: true`
`imageResizerHeight`	Thumbnail Height	Height of the generated thumbnail; Leave empty or set to 0 to only constrain the image by height; leave both width and height empty to fall back on the values set on the backend plugin configuration page
`imageResizerMode`	Thumbnail Mode	Select how to resize your images into thumbnails, or select “default” to use the thumbnail mode set on the plugin settings page; possible values are: - Default - Exact - Portrait - Landscape - Auto - Crop

Property	Inspector Name	Description
`galleryWidth`	Gallery Width	Can be a number (pixel lenght) or a percent (of the parent container). Leave empty to fall back on the values set on the backend plugin configuration page
`galleryHeight`	Gallery Height	Only applies to “Combined” and “Slider” galleries! Can be a number (pixel lenght) or a percent (of the parent container). Leave empty to fall back on the values set on the backend plugin configuration page

For examples on how to customize the gallery, see How to Customize your Gallery.

Check out the Demo Site for live examples of the above.
