Shared Options

The following options are available regardless of the gallery type (except for the Gallery Hub component, which does not have these options).

[Shared Component Inspector Options]

Property	Inspector Name	Description
`alias`	Alias	Standard OctoberCMS stuff, you refer to the component in your page via this unique identifier, the default is “embeddedGallery” but you can change it to anything you want (don’t use spaces or special characters though!)
`maxItems`	Max Images	The maximum number of images to display
`mediaFolder`	Media Folder	Select the folder that you uploaded the images to in the OctoberCMS Media manager. Only folders under the “Base Media Folder” set on the November Gallery settings page are valid.
`sortBy`	Order by	Order to display the gallery items in; note: Image Title, Description, and Sort Order only work for images uploaded using the Galleries page! Options are: - `title` / Image Title - `description` / Image Description - `sortOrder` / Image Order in Gallery - `width` / Image Width - `height` / Image Height - `orientation` / Image Orientation - `fileName` / Filename - `fileSize` / File Size - `uploaded` / Date/Time Uploaded; and all options are also available in reverse order (append DESC onto the option code).
